

Sloped Shouldered Bottle with 28R4 Neck

- ◆ Leak proof bottle suitable for liquid or powder storage
- ◆ Sloped shoulder design ensures even and maximum dispensing
- ◆ Available in both rigid HDPE and squeezable LDPE – ideal for glues and gels.
- ◆ Accepts a large range of 28mmR4 standard and dispensing closures
- ◆ All materials are FDA approved
- ◆ Size range from 125ml to 1000ml

Sloped Shouldered Bottle with 28R4 Neck

These slope shouldered bottles can be used for many applications but are particularly suited to glues and gels because their sloped shoulder design allows for completely even dispensing. The bottle can be manufactured from squeezable LDPE, or HDPE if your product requires a more rigid or chemically resistant bottle. Both of these options have unique product codes (listed in the table below).

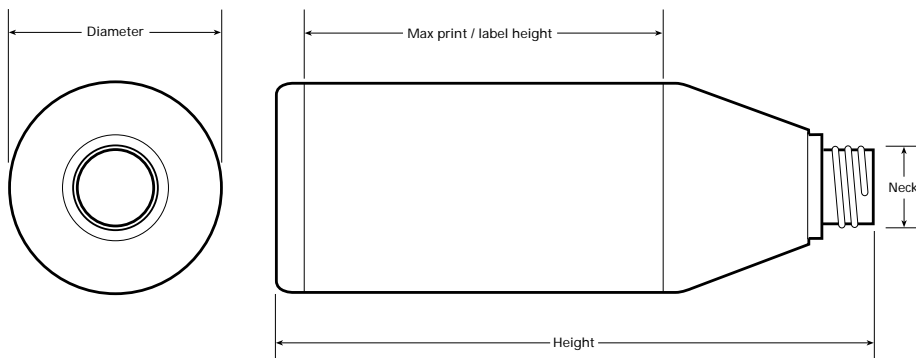

The 28R4 neck is common to all bottles in this range and as you can see from the separate cap options sheet we offer a selection of 12 different closures for this neck type, from spouted caps for use with glues and gels to induction heat seals.

The bottles can be manufactured from natural or pigmented polymers and can be labelled or printed if required.*

All bottles are manufactured from FDA approved material.

Technical Data & Ordering Information

** All bottle customisation subject to minimum order quantity and your design being agreed before production commences.*

Bottle Code LDPE	PGK126	PGK130	PGK132	PGK136	PGK138	PGK140
