

## Wide Mouth Square Bottles

- ◆ Heavy duty square bottles
- ◆ Choice of three different designs
- ◆ Manufactured from rigid chemical resistant HDPE
- ◆ Suitable for use with liquids and solids
- ◆ Supplied with caps
- ◆ Economical use of shelf and storage space
- ◆ Sizes ranging from 25ml to 2000ml

# Wide Mouth Square Bottles

Our square, wide mouth bottle is available in three different formats, all of which are supplied with the caps shown in the photographs (right).

The tamper evident bottle (Fig. 1) has moulded graduations and a plug seal, easy grip screw cap and is ideal for storing or transporting all types of sample. The cap also has a toggle for tamper evident wire attachment to the neck (not sold with wire).

The graduated bottle (Fig. 2) has more moulded graduations than the tamper evident option and is available with either a red or a blue cap for better sample recognition. It is also supplied with a plug seal, making the bottle suitable for storage of liquids as well as powders.

Our plain smooth cornered square bottle (Fig. 3 and diagram below) is both attractive and practical with a black wadded leak proof closure as standard.
